Installation

Prerequisites:

P200, P200A or P300

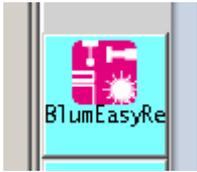

THiNC API V1.9.1

.Net Framework Version 4.0

To install the run the setup.exe file and follow the instructions given in the installation wizard.

Starting the software

There are three ways to start the software: The Windows Start Menu, The Windows Desktop or the button on the Okuma Vertical Function Key Menu (see image below).

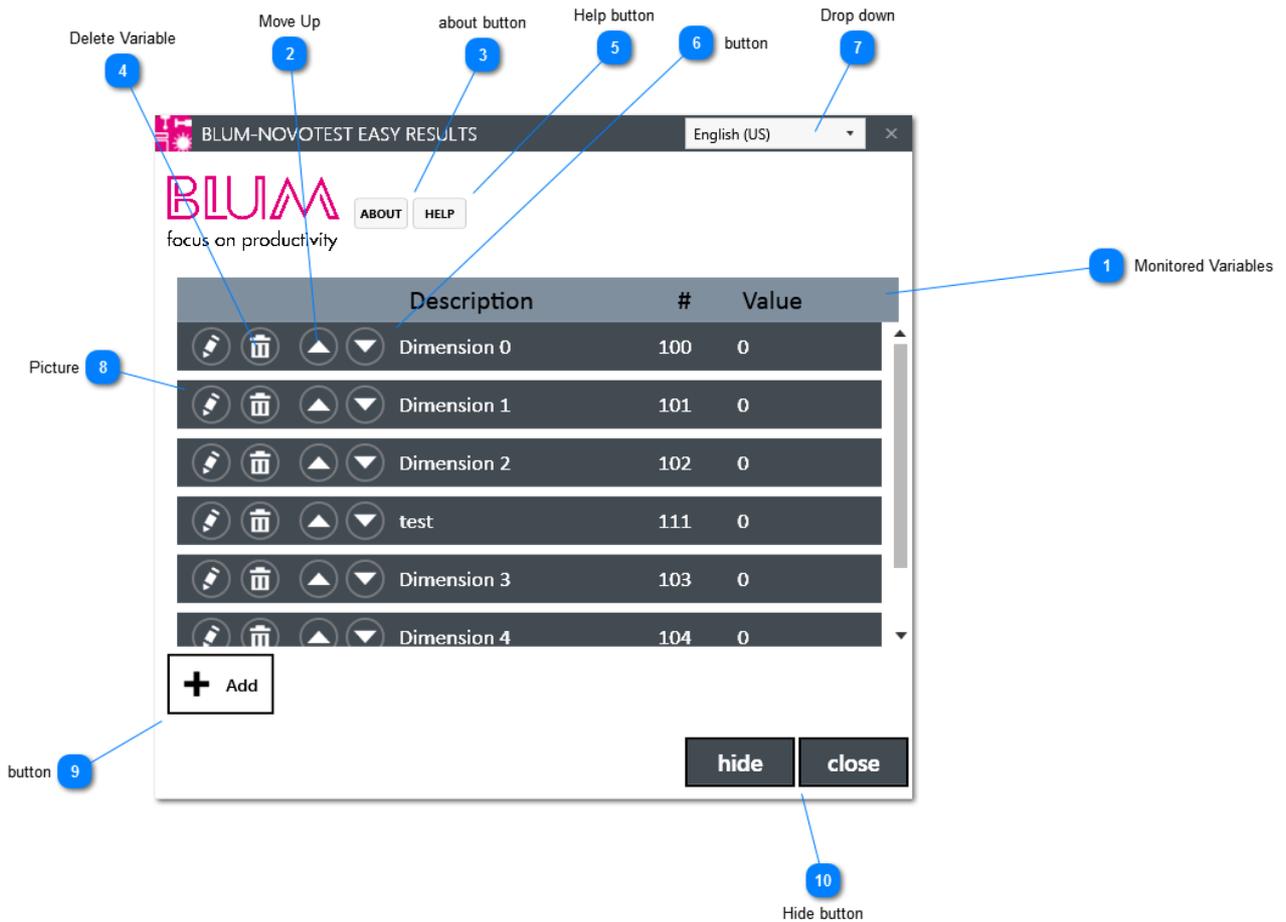

System Tray Icon

When the Blum Easy Result software is running there will be a Blum Icon in the system tray as seen in this picture. You can bring up the main application window by single or double clicking the icon.

Blum-Novotest Easy Results window

1 Monitored Variables

Description	#	Value
Dimension 0	100	0
Dimension 1	101	0
Dimension 2	102	0
test	111	0
Dimension 3	103	0
Dimension 4	104	0

2 Move Up

Move the selected variable up in the list of displayed variables.

3 **about button**

A rectangular button with the word "ABOUT" in uppercase letters.

Shows the about window.

4 **Delete Variable**

Removes this variable from the list of monitored variables.

5 **Help button**

A rectangular button with the word "HELP" in uppercase letters.

Opens this help file.

6 **button**

Move the selected variable down in the list of displayed variables.

7 **Drop down**

A rectangular drop-down menu showing "English (US)" with a small downward arrow on the right side.

Changes the language of the user interface.

8 **Picture**

Opens the edit dialog for the selected variable.

9 **button**

A rectangular button with a plus sign and the word "Add" in uppercase letters.

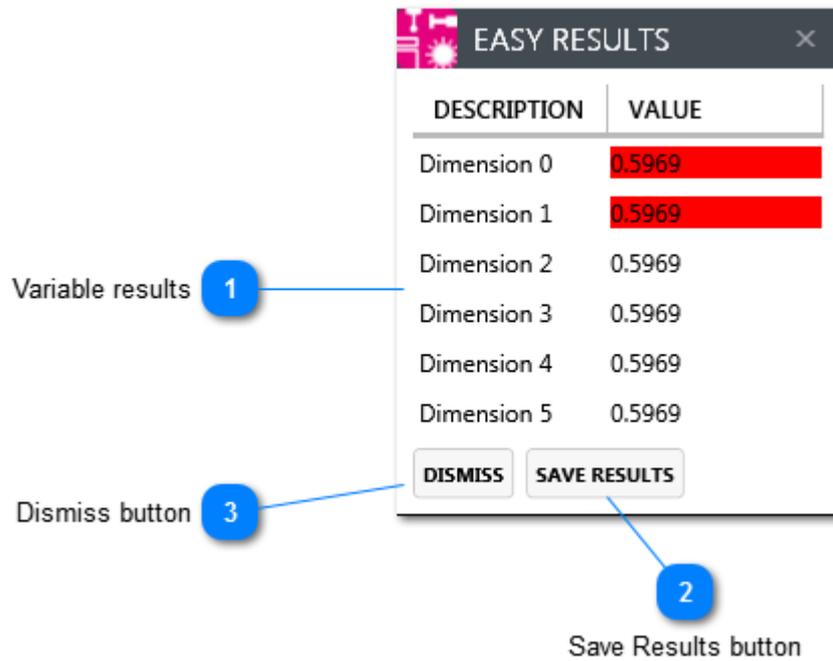

Creates a new variable and adds it to the list.

10 **Hide button**

A dark rectangular button with the word "hide" in lowercase letters.

Hides this window. It can be reopened either by double clicking the icon in the system tray or by clicking on the button in the vertical function key menu.

Easy Results window

1 Variable results

DESCRIPTION	VALUE
Dimension 0	0.5969
Dimension 1	0.5969
Dimension 2	0.5969
Dimension 3	0.5969
Dimension 4	0.5969
Dimension 5	0.5969

2 Save Results button

6

Out of Range color

The background color of the 'value' text when it is outside the Lower and Upper Limits.

Troubleshooting

The log files and variable definition files are stored in the Blum-Novotest folder in My Documents. The folder path is C:\Documents and Settings\[User Name]\My Documents\Blum-Novotest\Blum Easy Results.

If you are experiencing problem with the software please email a copy of the log files from this directory to jweaver@gosiger.com.

The file 'variables.json' located in the Blum Easy Results folder is the definition file describing which variables will be monitored. You can delete this file and restart the application at any time to reset to factory defaults. This file is also portable so that it can be taken from one machine to another.

variables.json format

Below is the contents of the default variables.json file located in the Blum-Novotest folder in My Documents. Any changes made to this file will show up the next time the application is started. If you make edits to this file and it becomes corrupt simply delete the file and the default values will be re-written.
